High Performance Cooled CCD Camera System ALTA U9000

The Alta U9000 uses a very large format 9-megapixel full frame sensor with anti-blooming gates, ideal for applications requiring large field of view, such as astrophotography, sky surveys, and radiology.

In the June 2007 issue of *Sky & Telescope* in an S&T Test Report, Senior Editor Dennis di Cicco had this to say about the Alta U9000: "The quality exceeds anything I've been able to do in the past with film or any other CCD camera."
